RE : still Having a problem and a little more, They also will not let me send copy's to you because it is not legal or no money

I write to you to let you know what is going on in here. They leave me in pain, is it right? Is this right when you have to write a nurse up because she gives shot without a Dr order or when you get thrown in a secluded setting for trying to stand up for my right? and take all my personal

The nurse that is giving me the most problems is - Michelle Ward and also in my lawsuit, she is constantly giving me problems doing her own thing. and the C-nurs Director - Sue Schoppell not doing anything about it, now they took me off my liver med's because they said I'm not a good candidate, It made me in even worse shape. so now what? leave me in pain? I could die and they gonna Help, or let me pass away? I need Help medically or let me die with my loved ones. what I Honestly need is some outside treatment from professional doctors who don't discriminate because I'm an inmate or feel as though I don't deserve treatment.

There is alot more I should tell you but I don't feel safe writing it. I really need help more problems is the last thing I need. I have no money so a friend is helping me send this out, I hope it get to you, if so I know your a caring Honest man and you do what you can for us.

Here another example of How they treat me, They put me in maximum security. I did my time for this M-R-Y-C-I. The only time I give anyone a problem is when its over my Health I don't want to die in Here, Is it right to leave someone in pain isn't that cruel and unusual

"over"

Punishment, It seem like nobody cares what happens
to me
